Important Information

Welcome

Why I choose ICT?

When I was a child, I was very interested in computers, technology, and architecture, and I chose architecture for some reason. And after getting a bachelor's degree in architecture, I have now decided to study in the computer field because it is a good opportunity to challenge myself in this field.

How I started:

Before I applied to HZ University, I met my friends who know programming, and they started coding in front of me and this issue doubled my interest and I started learning C++ language.

My plans:

I came to study at HZ University to improve my programming skills. My plan is to become a professional **software engineer**.

My goals:

- Gaining a lot of knowledge in ICT
- Making an international friends

Is ICT a nice study for me?

I think ICT is a very great study for me because I really enjoy everything about computers and programming.

Who am I?

How can you print a document from your laptop at HZ?

The user can print a document from their laptop at HZ by using the printer. The user can print a document from their laptop at HZ by using the printer. The user can print a document from their laptop at HZ by using the printer. The user can print a document from their laptop at HZ by using the printer.

How can you scan a document and send it to your laptop at HZ?

The user can scan a document and send it to their laptop at HZ by using the scanner. The user can scan a document and send it to their laptop at HZ by using the scanner. The user can scan a document and send it to their laptop at HZ by using the scanner.

How can I log something on the HZ web site?

The user can log something on the HZ web site by using the login form. The user can log something on the HZ web site by using the login form. The user can log something on the HZ web site by using the login form.

How can you book a project space?

The user can book a project space at HZ by using the booking form. The user can book a project space at HZ by using the booking form. The user can book a project space at HZ by using the booking form.

What are the instructions if you want to park your car at the HZ parking lot?

The user can park their car at the HZ parking lot by following the instructions. The user can park their car at the HZ parking lot by following the instructions. The user can park their car at the HZ parking lot by following the instructions.

My First Website

- Use a folder structure.
- Use meaningful names
- Maybe more modern font?

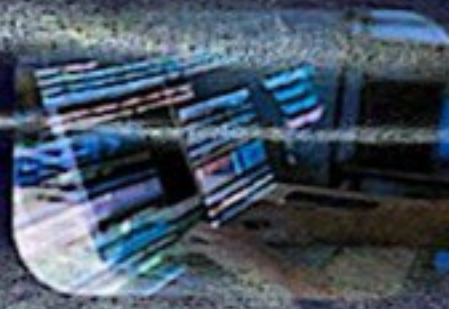

- dashboard - PPD, ITP, all year, BTC - 02
- + consistant layout
- organize files into folders
- + splitted css files
- semantic tags
- + cool poster

You can go to the [HZ website](#) and click on the 'Park' button. You can also park your car at the HZ parking lot.

Evaluation of pitch and website

Student name	Amrhan A+ali
Evaluated by	Greg Anderson

Front end, design and presentation

In the pitch of about 5 minutes, mark the following four categories and provide feedback for the student.

1. Are all necessary webpages implemented

Website is obviously missing important content	All necessary pages are there with content .
--	--

2. Design Creativity & presentation

On a scale of 1 to 5, how much do the website and pitch exhibit creativity, well thought out design and well presented? Is it complete with necessary content Think of original points of view, used resources, layout and design, and other "wow" factors.

1	2	3	4	5
---	---	---	---	---

3. Study & Career Motivation

On a scale of 1 to 5, how motivated does the student appear for the ICT domain and programme? Think of how detailed the motivation is described or not, Conveys knowledge on the program, different careers and possibilities within the IT field, Knowledge about strengths but also how to tackle potentials risks or personal challenges.

1	2	3	4	5
---	---	---	---	---

Constructive Feedback on how to improve

Condense the cady & Back-end

Back-end coding and technical skills

In the next 5 minutes, mark the following subjects by asking questions. Students can include examples in their presentation. If necessary, provide feedback for the student below tables.

4. Functionality

Does not exist or does not meet requirements	It is shown that the functionality is implemented but not completely according to specification.	Navigation, side menu, SEO and hosting are implemented according to specifications
--	--	--

5. Development environment

Very basic editor, no web server, no easy way to work in a folder with multiple files	Good code editor. Website hosted from computer. Can easily work with multiple files in a folder	Good code editor, website hosted on URL or IP address. Can easily work with multiple files in a folder
---	---	--

6. Code quality

Code is a mess	Meaningful naming of files and code. Code is generally clear. Care for indenting, capitalisation and structure of code and files.	Code and files are well structured. Great care has been taken for good naming and indenting.
----------------	---	--

7. Adaptability

It's hard and complex to change i.e. text colour	Change of i.e. text colour can be done within a minute	Change of i.e. text colour can be done within seconds
--	--	---

Who am I?

Name

Matin Ataei

Nationality

Iranian

Age

25

More information about me

I really enjoy playing sports, including tennis, maybe I'm not very good at it, but I know how to play.

Another of my interests is computer games, but now I can't play much because of my studies.

Musical instruments are another of my interests. But I don't know any of them. I hope you got to know me a little.

Some of my positive characteristics

- Very Hard working
- Intrested in making new friends
